Summary

I am a self-motivated full-stack web developer with expertise in HTML, CSS, JavaScript, React.js, Node.js, Python, Django, and SQL. I have hands-on experience from academic and internship projects and am eager to apply my skills in a professional setting while continuing to learn and grow.

Experience

- Full Stack Developer Intern**, techCentrix – Mysore August 2023 – September 2023
- A learning-based internship focused on training in HTML, CSS, JavaScript, Python, and Bootstrap.
 - Worked on web development projects under guidance, enhancing technical skills.

Education

- GEC Karwar** *BE in Computer Science* Dec 2020 – May 2024
- CGPA: 8.0/10.0

Projects

- **CartVibe - E-commerce Dashboard**
 - Developed an e-commerce dashboard for managing products, inventory, and orders.
 - Implemented user authentication with JWT for secure access.
 - Used MongoDB for product and order data storage.
 - Optimized the application using React and Node.js for efficient performance.
 - Deployed the frontend on Vercel.
 - Tools Used: React, Node.js, Express, MongoDB, JWT, Git, GitHub, Vercel
- **Blogverse - Blogging Platform**
 - Built a blogging platform for users to register, create, and publish blogs.
 - Integrated Firebase for authentication and data storage.
 - Developed an admin panel for content management and added search/filter functionality.
 - Responsive design with React, deployed on Firebase Hosting.
 - Tools Used: React, Firebase, Git, GitHub

Technologies

Languages: HTML, CSS, JavaScript, Python

Frameworks: React.js, Express

Technologies: Node.js, Firebase, Git, GitHub, Bootstrap, TailwindCSS, Postman

Databases: SQL, MySQL, MongoDB
